ESSENTIAL TRAINING WORKSHOPS FOR SAFETY & MAINTENANCE/PRODUCTION DEPARTMENT

MANAGEMENT OF ELECTRICAL SAFETY

February 28, 2025 (8:30am to 15:30pm)

Rs 8,000/ participant

Target Participants: Maintenance Manager, Electrical Supervisor, Safety Officer, etc.

This one-day course is for those who oversee the work of electricians and operating staff and who are either answerable for safety of their workers or who are called upon to ensure that proper standards are observed before issuing any permits or insurance coverage. Indeed, failure to ensure the required standard in such a high-risk area carries heavy penalties and sanctions!

CONDITION BASED MAINTENANCE WITH FOCUS ON INDUSTRIAL THERMOGRAPHY

March 07, 2025 (8:30am to 15:30pm)

Rs 15,000/ participant

Target Participants: Maintenance Manager, Supervisors, Technicians, Production Staff, etc.

*Industrial thermography is an invaluable technique that provides useful information on the condition of the equipment and system. It allows Maintenance and production staff to easily and quickly detect flaws and energy wastages in the system such as electrical installations, boiler plants, heat exchangers, etc. leading to enhance productivity, longer lifetime of machines, reduce incidents and to comply with the requirements of auditors and insurers. **This course will allow participants to understand the application of industrial thermography for condition monitoring, how to carry out thermography surveys and preparing comprehensive reports.***

LAUNCHING
PRICE: Rs.
10,000 instead
of Rs. 15,000

PROFESSIONAL DEVELOPMENT PROGRAMME IN OCCUPATIONAL NOISE RISK ASSESSMENT

MARCH 03, 10, 11 & 13, 2025 + E-Learning (8.00 am to 16.00 pm)

Rs15, 000/ participant

Target Participants: Health & Safety Officers, Engineers, Production Officers, etc.

The Noise at Work Regulations 2012 require Employers to ensure that employees and others in the workplace are not exposed to harmful noise levels by adopting necessary and appropriate control measures.

*Failure to comply with the regulations can lead to legal sanctions (fines and enforcement notices) and eventually to compensation claims due to hearing loss. **This course is designed to enable participants to be able to easily explore the comprehensive list of initiatives that need to be taken, and how to carry out proper noise surveys including noise calculations and audiometry testing procedures.***

EFFECTIVE MAINTENANCE MANAGEMENT

MARCH 14, 2025 (8:30am to 15:30pm)

Rs 15,000/ participant

Target Participants: Maintenance Manager, Supervisors, Technicians, Production Staff, etc.

*Poor maintenance of machines represent a huge cost for the organisation in terms of **reduced machine life, lower production level, increased machine downtime, higher energy & water consumption, higher accident rates,** etc.*

*There is a range of simple & cost effective measures that should be implemented to improve the standard of maintenance. Unfortunately, many organisations are failing to ensure proper maintenance of the machines. **This one-day intensive training workshop will enable participants to take several actions to ensure an effective maintenance management.***

ENERGY MANAGEMENT

MARCH 20, 2025 (8:30am to 15:30pm)

Rs 15,000/ participant

Target Participants: Maintenance Manager, Supervisors, Technicians, Production Staff, etc.

With the increase in energy costs, pressure from Authorities & Clients, Effective Energy Management is now a must for all organisations. The scope for energy savings in the form of heat, electricity is huge in most factories and yet many factories are failing to recognise their potential energy saving possibilities. This course is designed to give participants information and knowledge backed by actual case studies which they can directly apply to their workplaces to significantly cut down on energy costs with minimum investments and shorter payback periods.

ALL THE ABOVE COURSES ARE MQA APPROVED. For more information regarding the above courses, please consult our website at <http://itilmu.net> or contact us on 674-4150
